

Press release

HP e3000 fast and efficient migration solution for Health Care industry

Cupertino, CA—June 22, 2005—IMAXSOFT Corporation, a leading migration expert and key migration tools provider for the HP e3000 environment, today announced that Cariten Healthcare, one of the largest health insurance companies headquartered in East Tennessee, has selected IMAXSOFT for AMISYS Advance Surround Code Migration Project.

IMAXSOFT is providing a full suite of software products, database & application tools, and consulting services for Cariten Healthcare's transition of mission-critical applications to new open environment. By leveraging IMAXSOFT's OPENTURBO technology and technical expertise, combined with the collaboration of the technical services team of Amisys Synertech Inc. (ASI), IMAXSOFT provides a total Surround Code migration solution as well as training to Cariten's IT Department.

After conducting a comprehensive competitive procurement, intensive research regarding alternative approaches, and a thorough vendor evaluation, IMAXSOFT was chosen among 11 leading industry service HP e3000 and consulting companies for its track record since 1987, extensive 20+ years experience in HP e3000 migration field, and the robust OPENTURBO suite. IMAXSOFT is an authorized partner of ASI for AMISYS Advance Surround Code migration.

"IMAXSOFT was chosen based on their deep domain expertise with HP e3000 technical migrations, their full suite of migration/conversion tools, their approved contractor status with AMISYS, moderate pricing, and perceived ability to initiate and finish the migration work faster. They were the only company investigated that offered this unique set of capabilities." stated Barry Robbins, Cariten's Vice President of Information Services.

About Amisys Synertech Inc. (ASI)

ASI (www.asihealth.com) advances health plan business through its industry-leading products and services. The company delivers comprehensive, mission-critical information management software products and Web capabilities that meet the needs of nearly every healthcare payer model. ASI also provides leading business process outsourcing and application hosting for health plans, supporting a multimillion-member base through its claims processing and consumer-directed services. ASI has offices in Rockville, Md., Harrisburg, Pa., Dubuque, Iowa and Alpharetta, Ga.

About Cariten HealthCare

Cariten Healthcare is a provider of health insurance accredited by the URAC. Cariten processes 3.1 million claims a year, currently, with a total membership in excess of 230,000 members. For further information, visit Cariten HealthCare on the web at www.cariten.com

About IMAXSOFT's OPENTURBO

OPENTURBO is a robust, feature-rich toolset for migrating all major databases to open platforms. OPENTURBO can transform IMAGE/KSAM structure and data to ORACLE, SQL SERVER, DB2, Eloquence; replicate and synchronize databases bi-directionally, maintain IMAGE mirror in ORACLE, SQL, DB2, Eloquence or IMAGE, support phase-migration and parallel-production environment for a failsafe recovery; translate HP e3000 COBOL to Micro Focus COBOL and native ORACLE pro*COBOL; and convert JCL to native UNIX shell.

About IMAXSOFT Corporation

We are an HP e3000 migration company providing both product support and consulting services with a fully integrated web-based Project Management. Our methodology completes migrations in phases using database synchronization and automation that is result-oriented and essentially RISK-FREE.
